Discussion:

- What excites me about what I heard . . .what does it inspire me to try?

- What did I hear that may require me to think differently about my own P3?

- What, if anything, concerned me about what I heard?

Questions:

- What further questions do I have?. . . of which presenters?

- At our table, what 2 questions do we agree are most important to ask today?

- Collaborate
- Integrate

Communicate

Bore, noun. A person who talks when you wish him to listen.

Ambrose Bierce

Communicate

I don’t like that man.
I must get to know
him better.

Abraham Lincoln

Cooperate

The beginnings and endings of all human undertakings are untidy.

John Galsworthy

Coordinate

Write your injuries in dust, your benefits in marble.

Benjamin Franklin

F

Collaboration

I think there should be collaboration, but under my thumb.

Elia Kazan

Integrate

We have always found the Irish a bit odd. They refuse to be English.

Winston Churchill

And Always Remember:

Anything is easier to get into than to get out of.
